## A message from Mrs. Scholz

Hatim and Matilda from Year 5 represented our school at the Blackburn Diocesan Board of Education's Children's Equality Diversity and Justice Conference this week. This was held at Foxfield's Country House Hotel in Clitheroe which was very fancy. We were lucky enough to hear the Honourable Dr. Stuart Lawrence speak. He is a consultant, youth engagement specialist, coach and public speaker. He is also the younger brother of Stephen Lawrence who I am sure you have heard of. He was such an inspirational speaker and the children, who were fabulous ambassadors for us, returned to school determined to make a difference.

## News from our classes

**Bowland** This week Bowland Class have continued to amaze us with their learning in history. The children sequenced the story with Miss Dawson and pretended to be Christopher Wren and redesign St. Paul's Cathedral. They embedded art skills by colour mixing and collaging to create fire pictures. In Big Book Time the children remembered so many facts and reasons why the fire spread. They examined evidence to answer questions and definitely have the history bug! Well done Bowland Class.

**Grizedale** This week in English we have started to write our introduction to a magazine article all about the Loch Ness Monster. We have been thinking about sentence structure, punctuation and the purpose of each of our sentences before writing down our ideas. In Music, we have continued to perfect our version of We Will Rock You on recorders and have added some secret extras that we look forward to performing to the other classes!

**Nicky Nook** We have enjoyed using 'The Story Project' this week to think about goals we can set for ourselves and barriers that may get in the way. In maths we have been converting fractions to a common denominator so that we can order them. To help us learn about the parts of the heart we used clay to create models. We know that arteries carry oxygenated blood away from the heart, while veins carry deoxygenated blood back to the heart.

## Lead Learners

**Bowland** Lucas is our history expert and remembers so many facts about The Fire of London! He has also impressed all staff with his independence when spelling and concentration in all lessons. Well done Lucas!

**Grizedale** Cooper has worked SO hard all week and is always an outstanding role model for all of our classroom rules. This week, he has particularly impressed us with his amazing active and enthusiastic learning in maths. It's like we can feel his brain growing!

**Nicky Nook** Marisa is our lead learner—she has worked really hard this week demonstrating accuracy and resilience.
