*A small school with a big outlook...*

## A message from Mrs. Scholz

Halloween has come a little early for us this October, with our Spooky Disco this evening and Cake and Craft sale this afternoon. We are SO grateful to everyone who has taken time to make and bake for us—we have had so many donations and we hope to raise lots of money to support The Teenage Cancer Trust. We are also hoping that you will all be coming to the Spooky Disco which is always one of our School Association's most popular events. Don't forget to give your child some pocket money as there will be stalls and games!

## Lead Learners

- Bowland** Cordelia for magical reading with super fluency and awesome handwriting. Cordelia is an amazing learner in every way!
- Grizedale** Lead learner this week is Henry. Henry always has his hand up to share ideas, pushes himself to complete harder challenges and is such an enthusiastic member of the class. Well done Henry!
- Nicky Nook** Hatim for incredible behaviour for learning. He always works hard and loves to be challenged!

## News from our classes

**Bowland** This week Bowland Class have continued to learn about 3 Queens from the past. They were super research detectives! All of the children enjoyed a wonderful afternoon in the forest creating leaf art, identifying leaves and making animal houses. EYFS have created great story maps for The Gruffalo and even used their phonic fingers to spell. The children have been practising Learn Its in Big Maths and are so speedy! Well done Bowland!

**Grizedale** This week in Grizedale class we have started our Geography unit all about Rivers. We learnt what a river is and the different things they are used for like survival, food and energy. In English, we are looking forward to writing a letter to our Pen pal school to warn them about some very cunning witches and wizards and have been creating a toolkit so we know what to include! We have also enjoyed being coaches in dodgeball this week and each had a turn in planning and running a team for a game of dodgeball.

**Nicky Nook** This week in Nicky Nook we have been exploring how wind turbines are used to generate electricity. We made our own turbines and had to think, measure and question like a scientist. In maths and computing we have been studying how data can be presented. We have been interpreting data from bar graphs, tables, pie charts and
