A small school with a big outlook...

08

A message from Mrs. Scholz

Mrs. Harwood and I had the pleasure of observing English in Bowland and Grizedale class yesterday. It was such a pleasure to see both classes in action. Even the youngest children in our school are confident, independent learners and the way the children in Bowland share their learning with each other and relish new challenges is wonderful to see. In Grizedale Class the children's enthusiasm for their learning was clear - you could almost feel their brains growing! The lovely relationships we saw between our staff and pupils was testament to the care and respect every member of our school family has for each other. We felt very proud of our school - we hope you are too!

News from our classes

Bowland Class

I have enjoyed making butternut squash soup. We had to chop apples, carrots, onion and the butternut squash. Then we had to sauté them in a pan with some oil. Next we poured in vegetable stock. After we left the soup to simmer for half an hour. Finally we blended the soup and added the cream. It was delicious!

We have enjoyed reading *The Little Red Hen* and Pumpkin soup, we are very good at retelling these stories. In science we have been learning about evergreen and deciduous trees, exploring our outdoor areas.

Grizedale

We have been mastering rounding this week and worked very hard to make our learning sticky by using our own version of 'We Will Rock You!' and some rounding steps to success. We started our new units of learning in Science and Geography and have been making predictions and conducting experiments about contact-forces, locating countries on a world map and exploring the points of a compass. In RE we are thinking about how Jesus changed the world on his arrival, and we will be interviewing Mrs Gorst about how special it is to be a parent and the preparation that she had to make for baby Henry!

Nicky Nook

Nicky Nook have had a very exciting week of learning! We have created gadgets to help the 'Gladiators' train. We are entering a competition and have created some very exciting names for our equipment. We have also researched road safety items to help us be seen and safe on the roads. In History we used our enquiry skills to discover what an ancient artefact was used for. Our new English unit is full of magic.

Stay safe and enjoy Bonfire Night

Lead Learners

Bowland Class: Lead Learner in Bowland is someone who has settled so well into our class and shown superstar behaviour.

Grizedale Class: Lead learner is someone who has joined Grizedale Class this week and always has a smile on her face. She has been super confident, helpful and resilient when faced with being in a new school. We are SO lucky to have her in our school family!

Nicky Nook Class: Our lead learner this week is Eilidh for her incredible hard work in all that she does. Eilidh always continues her learning at home and demonstrates outstanding behaviour for learning. Her presentation is always beautiful!
