Scorton News

A small school with a big outlook...

A message from Mrs. Scholz

We welcomed Florence and Henrique to Bowland Class for a visit on Tuesday. They will be officially joining our school family in September along with 5 of our pre-schoolers who will be moving up into Reception. It was lovely to meet them and we will be seeing them again soon. Our Year 6 children have been working so hard over the last few weeks, preparing for their tests in 2 weeks time—Mrs. Harwood is so proud of the resilience and determination they have shown. We know they will smash it!

News from our classes

Bowland

This week we have been acting out George and the Dragon and we have also written the story in class. In Maths we have been learning about measuring length and weighing. We have cooked in DT- we made a tortilla quiche, some crisps and also delicious pitta bread crisps. We wrote instructions all about it! We have started to learn about the Yanomami tribe and how the rainforest life is different to ours. In EYFS we have got better at reading and singing our song with special words in all about dragons! We have also practised halving even numbers to 10.

Grizedale

Grizedale have been working very hard this week! In English, we have been writing the prologue for 'The Day I Fell Into a Fairytale' and are very excited to be innovating it soon with our own magical shop that appears out of the ground! In Science, we continued to explore sound and learnt about how pitch and volume are shown in sound waves. We explored some different songs to investigate this! We loved our first official swimming lesson with our groups and have been working on our front crawl. On Wednesday, we made the most of the beautiful sunshine and completed some observational drawings of our school.

Nicky Nook

This week in Nicky Nook we have been learning about spreadsheets and how to store and use data within them. We have used our reasoning and problem-solving skills in maths. After looking at how artists use colour and light in their work we have been designing light boxes - we cannot wait to make them!

Lead Learners

Bowland- Alice for an amazing week of learning! Alice has shone in Maths, Geography and especially reading! Alice read 24 pages at home in one night! Well done Alice!

Grizedale- Lead learner in Grizedale this week is Harry H. Harry has been such a role model in class. He has shown amazing active learning; always concentrating, joining in with discussions, explaining his answers and being so enthusiastic. Well done Harry!

Nicky Nook— Alfie has had a fantastic week of learning. We have been so impressed with his maths and behaviour for learning. Well done Alfie!
