A small school with a big outlook...

2

A message from Mrs. Scholz

As we settle into the term, it's been brilliant to see so much energy, curiosity, and fantastic learning happening across all our classrooms. Our youngest learners in Bowland Class have been celebrating a wonderful milestone as Reception received their very first reading books! Over in Grizedale, the children have been stepping into the spotlight with expressive poetry performances while turning into young scientists to investigate the mysteries of light and shadows. Meanwhile, Nicky Nook Class have truly impressed us with their maturity— delivering thoughtful School Council election speeches. Seeing the children approach every day with such enthusiasm and determination makes us all immensely proud. Thank you for your ongoing support, and I hope you all have a relaxing weekend!

News from our classes

Bowland What a wild week in Bowland class! We've been on quite the animal adventure, creating our own versions of Dear Zoo and crafting creatures of all shapes and sizes. The children have also been writing about their dream pets and the not-so-dreamy ones too! In Maths, we've been sharpening our number skills and diving into the wonderful world of fractions. Meanwhile, our Reception friends just received their very first books this week, and the excitement was absolutely contagious!

Grizedale In English this week, Grizedale Class have been reading and performing the poem The Spider and The Fly. We are getting excellent at performing as the fly using amazing intonation and expression! We have been learning about light in Science and have been exploring and investigating shadows. In our first lesson, we learned about human-made and natural light sources and myth-busted the idea that the moon is a light source! After that, we learnt that shadows are formed when an object blocks a light source and then explored how we can change the size of a shadow, where a shadow is formed and how we might make a shadow darker or lighter.

Nicky Nook It was fantastic to hear the speeches, power points and videos for our school council elections. Everyone had worked so hard and thought about their role carefully. We had our second hockey lesson and are beginning to develop our dribbling and passing skills. In PSHE we considered how we can help our planet as global citizens and everyone gave thoughtful and insightful contributions to the discussion. Nicky Nook are working so hard and demonstrate outstanding behaviour for learning. Well done!

Lead Learners

Bowland- A special spotlight on Nayel, our Bowland super star and this week's Lead Learner! We were blown away by his incredible reading skills and his counting abilities absolutely impressed us.

Grizedale—Lead learner in Grizedale this week is Bobby. Bobby has displayed amazing behaviour for learning all week. He has been constantly ready to learn, working his hardest and being an amazing role model to others in class.

Nicky Nook— Alfie has had an incredible week of learning. His contributions to class discussions have been thoughtful and he has worked really hard. Well done Alfie!
