A message from Mrs. Scholz

We are very grateful to the Ward Family for treating Bowland Class to their trip to the Bowland Wild Boar Park this week. The children had a super time and the staff complemented Mrs. Nickson and Mrs. Pollitt on their excellent behaviour.

Our Spooky Disco is fast approaching (Please save the date!) and the School Association would be very grateful for donations of sweets for their sweetie cones— please bring your sweets to the office if you can help.

News from our classes

Bowland

We had such a lovely time at Bowland Wild Boar Park on Wednesday. We saw lots of animals including goats, meerkats, deer, ostrich, rhea, emu, donkeys, ponies and of course the wild boars. There were lots of pumpkins growing in the vegetable patch - can you tell your grown-ups how they ended up there? We planted some edible flowers for us to grow at home. We've practised talking about our trip using our magic microphones and written some super recounts!

Grizedale

This week in Science we have continued exploring shadows. We planned and conducted an investigation to answer the question "How does the distance to the light source affect the height of the shadow?". We had to work very accurately and carefully to record our data and keep our test fair. We also have started our music unit this week and have learnt the A and B notes on the recorder to help us learn the song When the Saints Go Marching In.

Nicky Nook

This week we have used drama to persuade our son not to go in search of the Jabberwocky. We used conscience alley before beginning to write a persuasive letter. In maths we have been rounding numbers using a number line or a success criteria. Our experiments in science involved us making predictions, carrying out a fair test and drawing a table to present our results.

Lead Learners

Bowland-
Bowland Lead Learner this week is Cordelia, she is such a fantastic role model in our class. She amazes us every day with her reading and writing skills. Cordelia is so kind and caring to all her friends and the younger children. A Bowland Super Star!

Grizedale—Lead learner this week is Cooper. Cooper has displayed incredible behaviour all week; always listening and ready to learn, working extremely hard in every subject. He has been such a year 4 role model. Well done Cooper!

Nicky Nook— our lead learner this week is Bonnie. Bonnie is working so hard and is recognising her own abilities. It was amazing to hear her say 'I can see spellings now' Well done Bonnie!
